

CHAPERONE PACKING LIST

The outdoor education program is conducted primarily in the outdoors. Consequently, you will need to be dressed for all weather. As a chaperone you will be asked to join the classes on their hikes and at the rope course. We ask that you model appropriate clothing and most importantly are ready for getting dirty. Designer clothing and valuable accessories should be left at home!

Like the students we ask our adult guests to carry their bedding and suitcases across main camp from the parking area to the cabins. This can be quite a hike with all your possessions so pack accordingly please. Below we have compiled a suggested packing list. It is quite similar to the student's packing list with just a few minor changes.
