

# INSECT WORLD Activity Sheet

## Pond Study Data Sheet

Instructions: Take this Pond Study Data Sheet along with you on your next trip to a local pond. Circle the plants and animals that you observe. You may wish to make other notes on the back of this sheet, such as observations on preferred habitats for each animal/plant, habits and behavior, daily or seasonal activities and/or abundance. Use a different sheet for each pond you visit. Also, if you cover both sides of this Pond Study Data Sheet with clear contact paper you can write on it with erasable markers (and it will be waterproof).
